I hope this is only temporary,” he wrote on Telegram, explaining that his status as a “foreign agent” and his conviction bar him under electoral law from running for the State Duma. The 63-year-old’s campaign had been jeopardized since he was designated a “foreign agent” the previous week, briefly arrested, and fined 1,000 rubles for having shared, on Telegram in 2023, an announcement featuring a brief image of late opposition leader Alexei Navalny, whom authorities have declared “extremist.”

military. Remeslo was arrested in Saint Petersburg and was to be transferred to Moscow, where a “preventive measure,” such as pretrial detention or house arrest, would be decided, his lawyer Sergei Badamchin told. The charge, which carries up to 10 years in prison, follows social media posts in which Remeslo wrote that “Putin will be led away in handcuffs this autumn” and that “the situation is deteriorating rapidly for Putin.” Remeslo, previously known for testifying against the late opposition figure Alexei Navalny, had in March published “five reasons” on Telegram for abandoning his support for Putin, calling him an illegitimate president who should resign and face trial as a war criminal and thief, and describing the Ukraine offensive as a dead end that had caused “1-2 million casualties” driven only by “Putin's complexes.” Days later he was hospitalized at Saint Petersburg's Psychiatric Hospital No. 3, a facility once used to intern dissidents in the Soviet era, before being released in April.

President Volodymyr Zelensky called it a "horrible tragedy" and said all involved would be held fully accountable. Nine other soldiers were arrested in the case. Ukrainian media reported prosecutors believe the commander involved nine subordinates in the kidnapping on the night of June 26–27 and the killing on July 1 for personal motives. Police said the crime may have stemmed from a soldier's desire for revenge after the brothers insulted his wife in a dispute over noise. Interior Minister Igor Klymenko called it an inadmissible way of settling disputes.
